

SAS-Chicago

December Meeting

Wednesday, December 5, 2007

The December 2007 meeting will be held at the Goose Island Brew Pub located at 1800 North Clybourn, Chicago, IL. See the map on the following page.

Social Hour: 5:30 PM

Buffet Dinner: 6:30 PM

Speaker: 7:30 PM

Basic Beer Primer

by

Mary Pellettieri

Goose Island Brewery

Beer flavor and beer styles are complex interrelated worlds full of chemistry and microbiology. The average science fan usually finds the world of fermentation to be a fascinating subject once they begin to explore it. Mary will be presenting a short introduction to what makes beer taste and feel the way it does. We will discuss, while tasting several different styles of beer, the different flavors and what created those flavors and textures. The audience will leave with a deeper appreciation for the ancient craft of brewing and a new appreciation for the vast array of exciting micro and craft beers found in the supermarket today.

Please make your dinner reservations for the upcoming meeting by email at sas.chicago@bigfoot.com, by using the form on our web page < <http://www.sas-chicago.org/Online%20Registration%20at%20Goose%20Island%20Brewery.htm> > or by calling Slav Stepanovich at 847-421-2056. Leave your name, company affiliation, a telephone number and the number of reservations. Please call by noon Monday, December 3rd, so that proper arrangements can be made with the restaurant. If you can't attend, cancel by Tuesday noon: SAS is charged for no-shows.

Biography of Mary Pellettieri

While pursuing her Master's Degree in Public Health at University of Illinois Chicago from 1993 - 1995, Mary worked at the Siebel Institute as a part time lab tech and found a fondness for making beer. From 1995 - 1998 Mary worked full time at the Siebel Institute building her skills as a sensory panelist, brewing chemist and instructor. In 1998 Mary worked for the food industry as a training specialist for Silliker Laboratories. Mary returned to the brewing industry in March of 2001 as the quality technician. At her current position with the Goose Island Beer Company she directs all quality and research efforts, and manages the brewhouse, cellar, and packaging quality efforts. She is a member of the American Society of Brewing Chemists, American Society for Quality (ASQ) and Master Brewers Association of America and is a Certified Quality Manager with the ASQ. She sits on the National MBAA technical committee and on the local MBAA board.
